← 300mm →

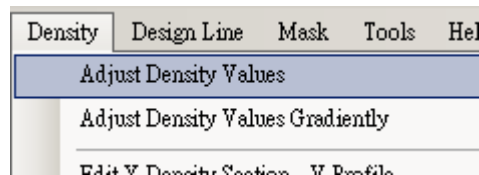

1. Execute BacklightFly/set dimensions to 300mmX300mm

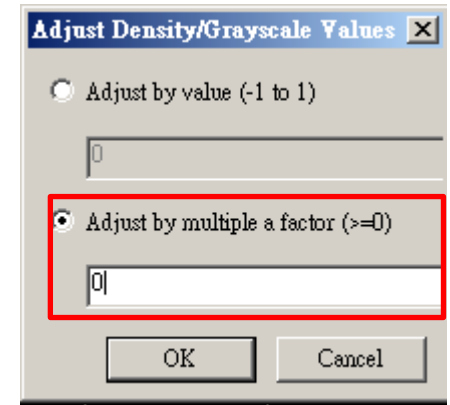

2. Set whole density value to zero.

Select all

Adjust value

Value X 0

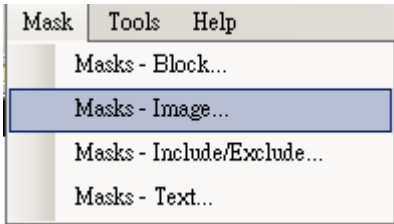

3.Paste 9 images—1/2

(50,50)	(150,50)	(250,50)
(50,150)	(150,150)	(250,150)
(50,250)	(150,250)	(250,250)

100mm

3.Paste 9 images –2/2

3.1 Select Mask-Image

Image Mask Data Editor...

+ Add Row - Remove Row Toggle Combobox Visible

	Action	Image	Is FHD Image	Trim White	Reverse Color	Multiplier	Adder
▶	Paste		False	True	False	0.7	0
	Paste		False	True	False	0.7	0
	Paste		False	True	False	0.7	0
	Paste		False	True	False	0.7	0
	Paste		False	True	False	0.7	0
	Paste		False	True	False	0.7	0
	Paste		False	True	False	0.7	0
	Paste		False	True	False	0.7	0
	Paste		False	True	False	0.7	0

Image Mask Data Editor...

+ Add Row - Remove Row Toggle Combobox Visible

	Action	Image	Is FHD
▶			False

3.2 Add 9 columns

Center X	Center Y	Width	Height
50	50	100	100
150	50	100	100
250	50	100	100
50	150	100	100
150	150	100	100
250	150	100	100
50	250	100	100
150	250	100	100
250	250	100	100

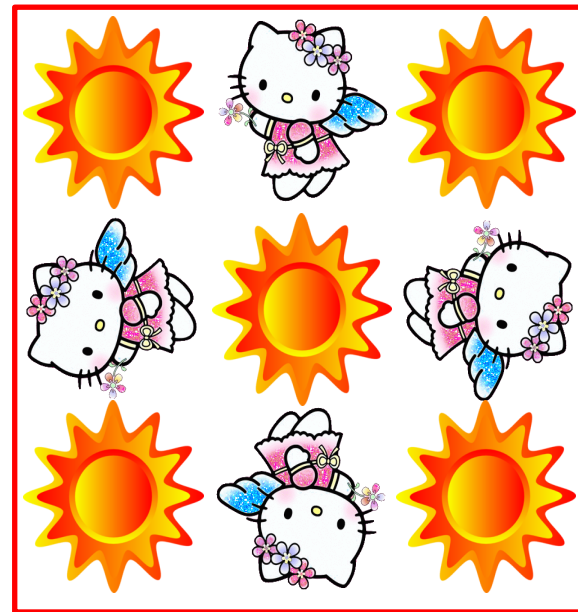

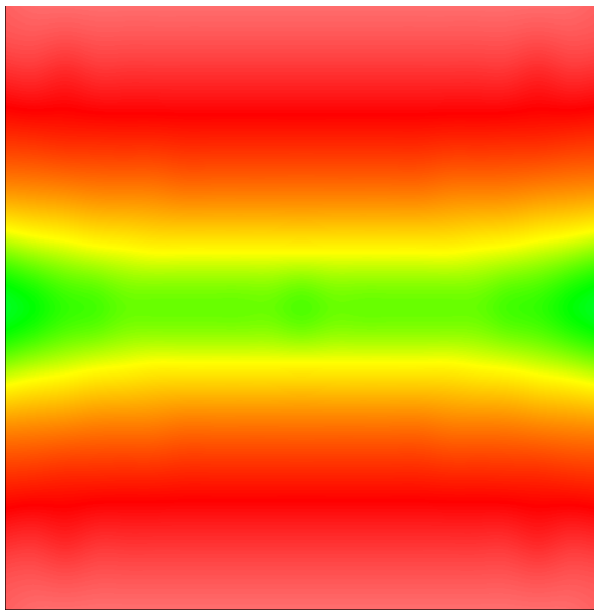

3.3 select and key right informations

4. Preview

5. Output—please reference menu.

Design Project—STD lighting with background

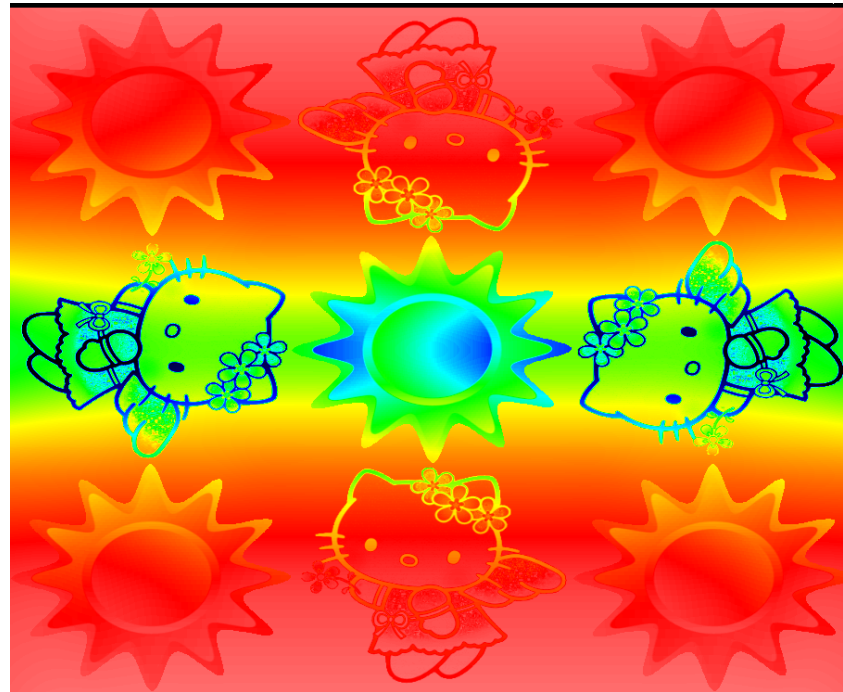

- 1.Original density design (please see 3-LED example)
- 2.Change Mask image/Action to add or AddPercentage

Image Mask Data Editor...

+ ×
Add Row Remove Row To

	Action
	AddPercentage
	AddPercentage

Design Project—STD lighting with background 2

Select and key in right informations in Mask-include/exclude.

Include / Exclude Mask Data Editor...
